SUGAR AND RICE DUTIES

REFORM INAUGURATED IN COLLECTING THE REVENUES.

Something About Glazed and Paving Tiles. The Distinction With a Difference. White House Improvements—Washington—National News Notes.

WASHINGTON, Aug. 1.—The drawback allowed by the government to sugar refiners on all refined sugars exported to foreign countries amounts to a substantial bounty. It is no longer the case, as the refiners are able to supply the Canadian market in competition with the sugar refiners, and it is said that the low price at which the high grades of sugar are sold in Canada has compelled many of the refiners to discontinue business. The British minister has submitted through the customary channels the appeals of the Canadian refiners to the secretary of the treasury.

There has been a well founded suspicion some time that the government is being overreached in the amount paid as drawback, and the whole business is now to be thoroughly investigated. It is calculated that the amount paid to refiners is now twenty-five per cent more than the amount collected by it. It will strike the average economist that this is a peculiar kind of business which pays out \$1.33 for every dollar collected as duty on sugar. Whisky and tobacco exported pay no tax, but the manufacturers do not derive profit from the remission of the tax.

The secretary of the treasury has called for reports from the collectors at ports where refined sugar is exported, and the investigation now begun will shortly end in the discovery of another treasury leak. The exporter is allowed a drawback equal to the amount of duty paid on the raw sugar when it is refined, but he is not entitled to a royalty on the products of his refinery.

The classification of rice was discussed several weeks ago for five hours by counsel for the importers and home dealers before Assistant Secretary Fairchild. A decision was then made by which the brewers were allowed to import the article, which enters so largely into the manufacture of lager beer, at the low rates specified in the Tariff act of 1883. The whole question has again been reopened by the collector at New York, and samples of the so-called granulated rice have been sent to the treasury department for examination. The opinion here is that the sample is broken rice, not, however, enumerated in the tariff. It is certainly not rice, which only pays a duty of 20 per cent, and the question is: What duty shall it pay? So far as the facts go it is liable to the highest rate of two and one-fourth cents per pound.

Assistant Secretary Fairchild decided that glazed tiles were not paying tiles in the meaning of the Tariff act, and would therefore have to pay the higher rate of duty. This question has been pending for some time, and great interest has naturally been taken by the American pottery manufacturers in the outcome of the case in the treasury department. Since the Queen Ann style of architecture has prevailed in this country the glazed tile has been largely used in the ornamentation of mansions and chimney corners, and were largely used for hearths in front of mantels and fireplaces. The letter was the foundation for the claim that the glazed tile was used as a paving tile. The decision of the treasury department removes the matter from further controversy.

The president was kept pretty well engaged all day seeing callers, among them being a number of congressmen. After disposing of his office callers the president found time in the afternoon to receive congratulations from a large number in the East room who called to pay their respects. As usual, three-fourths were ladies. A great number of the ladies were from the city, and it being to many their first visit to the White House.

The White House is now in its summer dress. During the absence of the president, while taking his summer rest, the mansion will be fixed up considerably. The walls and ceiling of the main vestibule will be refrescoed in a style similar to that used in the East Room and main inside hall. The building will be painted inside as well as outside, and some new furniture will be added.

Ohio Politics.

New York, Aug. 1.—The Sun's Washington special says: "The Ohio Democrats have come to an understanding, and unless the present arrangement is broken, Governor Roodly will be nominated by acclamation and ex-Senator Thurman will be returned to the senate in case the legislature is Democratic. There is no serious probability of predicting that all factions in the party have agreed to bury the hat and to carry on an aggressive and harmonious campaign."

"All movements in favor of Converse, Geary, Ward or others are stopped. The party will show no signs of disunion. It is very easy to believe that the full Democratic vote will be polled and the state carried for the party's behoof."

"Information comes here that the Prohibition party never had so much money nor so many good speakers as now, and that they will cut into the republic vote to a very damaging extent. The efforts of the republicans to resurrect the bloody shirt have failed flat, and the only race danger to the democrats lies in the wool question, in which the republicans will find a stronger argument in some sections of the state."

"The administration takes a peculiar interest in the success of the party at the coming election, as Ohio will be the first state to elect a republican president."

"The administration takes a peculiar interest in the success of the party at the coming election, as Ohio will be the first state to elect a republican president."

reduced, and this paragraph is said to have been dictated by Mr. Albright, who occupied Mr. Rose's desk in the appointment division. "Inquiries directed to Appointment Clerk Higgins are said to have elicited the information that Mr. Albright was not, but would be, assistant chief of the division. An explanation of Mr. Albright's appointment is furnished on apparently good authority by a statement that Higgins' career as appointment clerk is at last at an end, and that Mr. Albright is to succeed him as soon as he gains some acquaintance with the duties of the office.

"This is intended to insure the substitution for Higgins of a personal friend Secretary Manning, and a gentleman apparently qualified and capable of filling the position with credit and loyalty to the administration. Mr. Albright's appointment would be with a view, it is said, to securing intelligent and efficient aid in the enforcement of the letter and spirit of the civil service law."

Nye to Panama, where they will be transferred to the Pacific Mail steamship for transportation to New York.

SIMPLE SIMEON.

San Harris Returns to Cincinnati and is Locked Up for Lunacy.

CINCINNATI, Aug. 1.—At the request of his father, two officers were sent to the Union depot to arrest Simon Harris, and find him until they could send him to the sanitarium. Simon happened to read in a paper on his way from Toledo that he was insane, and evaded the officers by jumping from the train. He was then stopped at Eighth street crossing, and proceeded up town, and was arrested at Fourth and Walnut by Officers Conroy and Mulvany, who accompanied him to Central police station. He remarked to the officers when taken, "I saw where I was crazy, and thought I'd come down and see about it."

"Why did you shove off your mustache?" "Oh, my people are liable to do some funny things."

He registered as Simon Harris, aged twenty-seven, lawyer, of Chicago, with a Cincinnati office with Campbell, Bates & Betman.

He will be placed in the College Hill sanitarium.

HIRSCH'S BONANZA.

Offered Ten Thousand Dollars for Grant's Birthplace.

New York, Aug. 1.—James J. Cogan, of this city, is trying to buy the old house in which Gen. Grant was born, to present it to the city to be placed in one of the parks.

Cogan replied that he would give \$5,000, but as yet no acceptance has been received.

All were delighted with their reception by Mr. Gould and his wife.

Strike Imminent.

WACO, Tex., Aug. 1.—The Gould railroad strike in Texas is threatening a strike unless the present working hours are reduced to ten. The executive committee of the workmen's association called upon all members of the Union Pacific and its leased lines, including the Texas Pacific railway, to absolutely refrain from working over ten hours per day. The strike is expected to begin tonight, except in cases of emergency, and then only when one and one-half time is allowed for such work.

FROM THE OTHER SIDE.

THE END OF THE "REVELATIONS" IN LONDON COMES AT LAST.

The Need of New Credits to Fight the Cholera Plague—Latest Reports—Russia and England—Panama Love Feast—Lady Peel—Foreign.

LONDON, Aug. 1.—An outcome of the meeting of members of parliament, which was presided over by Mr. Samuel Morley, and the attendants at which pledged themselves to remain in London to support the Criminal Amendment bill, is that Mr. Richard Acheson Cross, home secretary, has intimated that he approves of raising the age of consent to sixteen years. At a meeting of the Salvation Army in the Queen's Bench road a letter from the queen to Mrs. Booth concerning the proposed work of the army in saving young girls from vice. Her majesty, referring to the proposed criminal amendment bill raising the age of consent from thirteen to sixteen years, says that she feels deeply on the subject, but, acting under advice, must refrain from expressing an opinion on the measure, because it is a matter before parliament.

The committee to inquire into the recent statements of the Pall Mall Gazette in regard to London vice has made the following report: "Having been requested to inquire as to the truth of statements printed in the Pall Mall Gazette from July 6 to July 10, we decided from the first to exclude inquiry into charges against particular men or classes of men or against the police. We strictly confined ourselves to an inquiry into the system of criminal vice described. After carefully sifting the evidence of witnesses and trials before us, without guaranteeing the accuracy of every particular, we are satisfied that the statements of the Pall Mall Gazette are substantially true."

The report is signed by the Archbishop of Canterbury, the Bishop of London, Cardinal Manning and Messrs. Morley and I. B. I. A late edition of the Pall Mall Gazette was published containing the foregoing report in limited type.

The Cholera.

MADRID, Aug. 1.—The credits voted for the work of combating cholera throughout Spain are exhausted and the government will at once convocate a state council and demand further credits. The provincial Italian liberal associations are organizing a relief fund to send money to Spain and assist the people in the cholera stricken regions. The movement is spreading and becoming important, and donations are flowing in from all parts of Italy.

Scattering reports gathered show that there were 216 new cases of cholera and 72 deaths from cholera in the city of Ragusa, and 781 new cases and 273 deaths in the province of Saragossa outside the city; in the city of Grenada 90 new cases and 27 deaths, in the province of Granada 100 new cases and 27 deaths, in the city of Salamanca 9 new cases and 14 deaths, in Ciudad Real 11 new cases and 10 deaths, in the city of Toledo 160 new cases and 119 deaths, in the province of Alcala 210 new cases and 105 deaths, in the province of Cordoba 100 new cases and 10 deaths, in the province of Jaen 55 new cases and 51 deaths. In the city of Madrid the number of cases is increasing.

A Panama Love Feast.

PARIS, Aug. 1.—The annual meeting of the Panama Canal Company was held, M. de Lesseps presided. Delegates from the Colombian, French and Spanish governments were present, along with other distinguished persons. M. de Lesseps read the annual report which was received with applause.

The chairman thought that the canal company had nothing to fear from the United States. He refuted certain assertions made recently regarding the doctrine of the company, which he declared, was perfectly consistent with the company's enterprise. One of the delegates registered his protest against the figures in the report, and demanded that a committee of inquiry be appointed.

M. Charles de Lesseps opposed the motion, and the report of the committee adopted. The board of directors was re-elected. The meeting unanimously authorized the board to permit the application to the French government to permit a lottery loan of 600,000,000 francs.

Russia and England.

LONDON, Aug. 1.—The marquis of Salisbury has agreed to the request of Baron de Staal, the Russian ambassador, to suspend the negotiations in relation to the Afghan boundary question until M. de Giers, Russian foreign minister, obtains a report of the topographic survey which has been ordered of Zulzhar Pass. Lord Salisbury will take a holiday some time in the month of August.

At a recent durbar Abdurrahman Khan, amir of Afghanistan, spoke of the relations between his country and England. He said that he was convinced that England desired nothing but good to the Afghans. The amir said that his people were friendly to the friendship of England, and said it would be a bad day for them if ever they came under "the tyrannical rule of England."

Similar that the report that the amir of Afghanistan had assented to the establishment of a cantonment at Candahar is absolutely untrue.

Tragedies in India.

BOMBAY, Aug. 1.—A Pathan soldier was reported for misconduct. In revenge he shot and killed a poor woman belonging to the native regiment. He then transferred himself within his quarters, and shot his wife dead. After burying up for a time an attempt to shoot his own mother, who was attempting to assassinate him, he lay down beside his wife's corpse, and with his bullet ended his own life. A whole series of tragedies took place within an hour.

Lady Georgiana Peel.

LONDON, Aug. 1.—Lady Georgiana Peel, a daughter of the statesman, Lord Russell, died from a fall from a horse. She was driving in her carriage the day previous the horse ran away and she was thrown with great violence to the ground. She was dis-

tinguished for her charitable works. Her husband was the son of the well known Gen. Peel, formerly secretary of state for war. She has seven children.

Tour of Ireland.

LONDON, Aug. 1.—The Earl of Carnarvon, lord lieutenant of Ireland, will shortly make a tour of Ireland, for the purpose of personally inquiring into the needs and alleged grievances of the people.

The Boer Republic.

LONDON, Aug. 1.—The Boer republic denies the claims of the British government upon St. Lucia Bay, and asks continental European powers to consider the bay a free port.

To Resume.

DE BLIN, Aug. 1.—A scheme was proposed by a number of the shareholders of the Munster bank for the re-establishment of that institution upon a sound financial basis and was adopted at a meeting, and immediate steps will be taken toward resuming the business of the bank.

Securities Found.

COKE, Aug. 1.—The apartments occupied by a certain individual, the absconding manager of the Munster bank, were searched and a number of valuable securities, which he evidently overlooked in his flight, were discovered.

Want Wares.

PARIS, Aug. 1.—The Italian consul at Amatrice is negotiating with the Hovas in the interest of France, with a view of arranging a peaceful settlement of the Malagasc difficulties.

Irish Host.

MADRID, Aug. 1.—In the cholera infected districts there were 2,616 new cases and 1,600 deaths.

WASSON MUST DIE.

A Bold, Bad Desperate Run to the End of His String.

PORT SMITH, Ark., Aug. 1.—James Wasson, one of the worst desperados of the Indian Territory, has been convicted of murder in the United States court. Wasson's crime was very brutal and cowardly. He was a comrade of John McLaughlin, who were living in the Chickasaw Nation nearly three years ago, and one day sent across the Texas line for a bag of whisky.

They got drunk and having an old grudge against Henry Martin, a neighbor, they went to his house to kill him about sunset, but, finding that he had gone to his neighbor's, they started in pursuit. Meeting Martin on the way both opened fire on him without giving any chance for escape. He shot him five times, and after leaving him for dead Wasson returned in a few moments and fired a bullet through his head to acquiesce in his death.

Both men escaped and left the country eighteen months afterward. Wasson, 35 years of age, was a native of Texas. A religious revival, was prevalent upon the church and reform but he still there was planning to give up his criminal life. He was living for him on account of the cruel way in which he had killed Henry Martin.

Shortly after this he and Jerry Lewis, another well known desperado, went to the home of a man named Almarin Watkins, a rich cattle king, who was in charge of the prison. The prisoners refused to follow the man to them, whereupon a difficulty followed and Watkins was killed.

Wasson again escaped, and Watkins' widow offered \$1,000 reward for his capture. He was captured about six months ago, by the state police, and is now in prison here for trial. Had he been acquitted on the first charge he doubtless would have been convicted for Watkins' murder.

MIDNIGHT MARRIAGE.

How a Texas Cattle King Won a Heiress and Accomplished His Wish.

PORT WORTH, Kan., Aug. 1.—In midnight wedding ceremony, the Texas cattle road brought a handsome looking lady of twenty-six years. As she alighted at the Union depot she stood on the platform under the glaring lights, closely guarded by her father and her lady and addressing her father on the subject of marriage received a blunt notice that he would never consent to a daughter of his wedding a rebel soldier.

At this rebuff Mr. Lane took to the prairie and gave all his attention to stock raising. He was very busy, and to justice. Recently he reopened the correspondence with his lady love, and urged her to desist from home. The midnight marriage is the sequel. They immediately left for the doctor's ranch in the womanless land of cowboys and rattlesnakes.

Cold Water for a Lover.

NEW YORK, Aug. 1.—A young man, whose clothes were very wet, applied to Justice O'Reilly at Essex market for a warrant. "For Miss Fitzgibbon, sir," said the young man, "I have a warrant for my daughter, Miss Lane, and I made an engagement to take her to Coney Island. When I whistled for her to come down the old woman poked her head out of the window and said, 'You can have my Tillsie,' and the next thing I knew a pail of water came down on top of me."

Justice could do nothing for him.

Highwaymen.

CHICO, Tol., Aug. 1.—The Brownwood and Chico stage was robbed a mile and a half south of Chico by two masked men. The extent of the robbery is not yet known.

## THE BODY DISCOLORING

THE REMAINS OF THE NATION'S DEAD  
FAST GOING TO DECAY.

The Intestines Not Being Removed the  
Embalming Fluid Has No Effect—Two  
Hundred Thousand Strangers  
Will Visit New York—Notes.

New York, Aug. 1.—The Herald's Mr.  
McGregor correspondent sends the follow-  
ing:

"It will probably be a disappointment to  
New Yorkers when the remains of the gen-  
eral lie in state in their city to find that the  
face has not preserved that life-like hue  
that has been so graphically and truthfully  
described by the Herald. Since Saturday  
last there has been a great change in that  
respect. The face has a browner tinge on  
the forehead, and under the eyes there is  
more or less discoloration. This darkening  
of the skin is likely to increase rather than  
decrease during the time that will elapse  
before its removal to its final resting  
place.

"Embalmment, if successful, is supposed to  
prevent the setting in of appearances of this  
character, but it is said here, in explanation,  
that the interior of the body was not dealt  
with in the manner invariably adopted by  
embalmers in consequence of the opposition  
of the Grant family to the removal of the  
intestines. If these are the facts, and they  
are stated on authority that ought not to ad-  
mit of any doubt, that Gen. Grant will not  
present an appearance in death that his  
dearest friends would have liked him to pre-  
sent.

"Dr. Douglas, when asked about the dis-  
coloration of the face, said: 'I did notice a  
discoloration under the eyes that I had cer-  
tainly not seen before. I do not know what  
has attributed to it. It is quite true that  
the family did object to any mutilation of  
the body, and therefore the intestines were  
not removed. The embalmers knew of this,  
and it was supposed by them that the fluids  
they injected into the body would preserve  
it, and would accomplish the desired pur-  
pose. I was the more willing to take this  
view of it, because I knew how emaciated  
the body was, and how little there was to go  
into corruption.'"

### Not Legal Grounds.

New York, Aug. 1.—One of the morn-  
ing papers claiming that a resolution of the  
board of aldermen, authorizing a section  
of land in Riverside park for the sepulchre  
of Gen. Grant and widow, upon her demise,  
was illegal and void. Capt. Twomey, clerk  
of the common council, says that the lands  
of the city are held by the city in fee simple,  
and not in trust. He cited a decision to that  
effect of Judge Macomber, of the supreme  
court. Gen. Macomber, who was chairman of  
the civic portion of the funeral procession, said  
the civic procession, or at least a large por-  
tion of it, would not go all the way to River-  
side park. The suggestion to have the en-  
tire procession march, not only to Riverside  
park but again back to the City hall and  
jardens, has been given no serious consid-  
eration.

### 500,000 Strangers.

New York, Aug. 1.—Officials at the  
Grand Central depot estimate that 50,000  
people will come to town by that way to see  
the funeral of Gen. Grant. They will begin  
coming on Tuesday, and keep coming to Fri-  
day. If the other roads do so well, it is be-  
lieved that there will be 150,000 visitors here  
from points distant more than one hundred  
miles on Friday morning, and 50,000 will  
come in the afternoon from towns in the im-  
mediate neighborhood. Many rooms have  
already been engaged at the big hotels. Of-  
fers from speculators of \$50 a piece for win-  
dows in the Fifth Avenue hotel and the  
Huffman house have been made, but no  
such offers will be accepted.

### Grant's Caliber.

MOUNT McKEON, N. Y., Aug. 1.—The  
following has just been issued: "The under-  
signed respectfully invites all ex-members of  
his father's regiment to attend the funeral ob-  
sequies to be held on the 8th proximo, in  
New York. All accepting this invitation are  
respectfully requested to advise Gen.  
Hancock, who will assign them to appropri-  
ate places in the procession.

### "FRED GRANT."

Gen. Jackson and Col. Beck who were  
prostrated by the electric bolt have com-  
pletely recovered.

### Jose Grant.

Mr. McGregor, N. Y., Aug. 1.—There  
will be no public exposure of the remains,  
but permission will be granted a few in-  
timate friends to view the remains. Jose  
Grant says the statement that he was going  
as an engineer to the river Euphrates is  
new to him. He thinks possible business  
interests will oblige him to go to California  
to reside after a few months.

### VALENTINE WAGNER HUNG.

The First Hanging Under the New Law  
Occurs at Columbus.

COLUMBUS, Aug. 1.—Valentine Wagner  
was executed at the Ohio penitentiary at  
twenty minutes before 3 o'clock. His limbs  
trembled as he was led upon the scaffold,  
and which he was being pinned he cried  
bitterly, protesting his moral innocence.  
"My God, men, don't hang me. I didn't  
know when I killed Dan. After I'm dead  
you'll know I'm innocent," he pleaded.  
A hoarse man. While he was yet praying for  
mercy the fatal dose was adjusted and at  
exactly twenty minutes before 3 o'clock the  
trap was sprung.

His neck was broken by the fall, and he  
died without a quiver. He was cut down in  
ten minutes, and his body was draped to  
Edison station, Morrow county, Ohio.

On the night of December 18, 1884, Wag-  
ner, while under the influence of liquor,  
drove to the house of Daniel Shehan, Ferry  
township, Morrow county, Ohio, aroused the  
family and shot the latter twice, killing him  
almost instantly. He then drove to his own  
home, surrendering to the officers next morn-  
ing.

Shehan married Wagner's sister and en-  
deavored to get possession of her property  
which caused the trouble. Wagner was  
fifty-seven years of age at the time of the  
crime but always been considered a quiet  
and industrious man.

dren in destitute circumstances.
